

Hi5 furniture

capitol

Capitol is a classic choice for formal conference and board rooms. Capital comes in an array of sizes, shapes and finishes. Select one of the many power systems offered by Hi5. Capitol comes standard with a recessed bases and access doors. Optional decorative inserts also available with Capitol.

Specifications:

Hi5 laminate and wood veneer table tops are nominal 1.25" thick, warp-resistant construction. Core is 1.125" thick 45lbs. high density, industrial grade particle board. The top surface is decorative laminate or wood veneer. The bottom is covered with a balance backer sheet. Laminate and backing sheet shall be permanently bonded to the particleboard core using a high solid water based PVA glue or contact cement. The exposed edges shall be sealed with PVC, HPL, solid wood or T-mold.

Hi5 solid surface tables tops are 100% acrylic. They are nonporous and the seams are impervious. The surface feels silky, warm and welcoming to the touch. No sealing necessary and it's naturally stain-resistant. The surface is completely renewable, because the color and texture runs all through the material, you can easily repair scratches.

Hi5 Capitol bases 18" or 24" rectangles constructed of particle board sealed with decorative laminate or wood veneer. Capitol comes standard with recessed base.
